

Orchids

**Pure
therapy**

'Plant Designs have selected a fantastic array of plants and orchids to uplift our office – their friendly staff provide an excellent after-care service; overall, a brilliant all-round service!'

Our range

Enjoy the therapeutic benefits of having orchids in your office. Their sheer beauty will lift the greyest day and bring sunshine to your workplace.

We have 5 ranges varying from the simple beauty of double-stemmed orchids to fabulous displays in amazing pots. And the sky is the limit with our bespoke range.

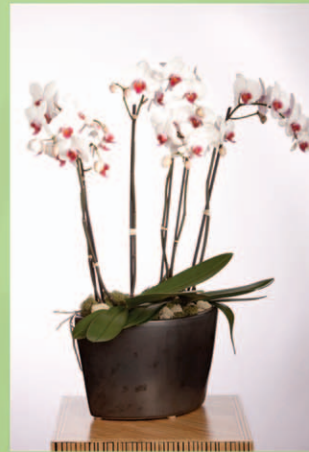

The Simplicity range is just what it says, but these double-stemmed beauties outshine any other flowers you are likely to have on your desktop.

From
£25
per month

The Reflection range comprises 2 orchids together – twice the impact.

From
£40
per month

The Balance range brings in more design features and more exclusive pots. Put one of these on your desk to feel you are in paradise.

From
£65
per month

Our promise

We supply the pots and the orchids and every 2 weeks one of our horticulturalists visits to check that the orchids are healthy and happy. Every 6 weeks the whole display is changed so that you have fresh inspiration.

We care for our orchids because we love them and we want you to love them too.

The **Elegance** range is a wonderful gear-change up in terms of design – lovely and unusual planters combine with simple, elegant flower arrangements to make arresting displays. From **£95** per month

The **Harmony** range is almost beyond words. Fabulous pots harmonise with copious planting to achieve grandure. From **£145** per month

Our design

When you see what we can do you'll understand why we have the word 'Design' in our name; we blend horticultural knowledge with a strong design sensibility and a sheer love and passion for our plants.

Love our designs. We do.

Serenity range

Pure bliss. Custom designed, site-specific creations that will make people sit up and listen - or at least enjoy walking past.

These unique designs bring together amazing planting solutions and truly phenomenal orchids - whether a dozen stems in quiet celebration or a forest of tumbling leaves and petals.

And context is all - our schemes are carefully designed to enhance your office environment.
